M&A WORLD IS THE WORLD OF M&A

Success Together in the
World of Mergers and
Acquisitions!

Quality is not a mistake;
it doesn't happen by
chance.

ABOUT US

M&A World, the global network of merger and acquisition professionals, is the most cutting-edge independent provider of efficient and innovative solutions for cross-border transactions across all sectors and regions.

In response to recent economic challenges, the M&A advisory landscape has undergone a significant paradigm shift. Traditional advisory methods have become increasingly slow and inefficient.

M&A World moved ahead. We developed an entirely new transaction advisory approach based on a unique philosophy – combining traditional values and international standards with innovative, digitalized Business IT Solutions. Our method gets deals done – faster, smarter, and with confidence.

THE **KEY** TO M&A WORLD'S SUCCESS
IS BASED ON **THREE MAIN PILLARS.**

3

WORLDWIDE NETWORKING
BUSINESS SUPPORT CENTER
BUSINESS IT SOLUTIONS

WORLDWIDE NETWORKING

M&A World brings together the world's most extensive network of merger and acquisition professionals. With over 550 experts across more than 125 countries, our partners collaborate closely to guide each transaction toward a successful and seamless outcome.

Our partners are carefully chosen for their unwavering professionalism, strong ethical standards, and shared dedication to delivering exceptional client service.

*"Coming together is a beginning;
keeping together is progress;
working together is success."
Henry Ford*

BUSINESS SUPPORT CENTER

The M&A World partnership was established 20 years ago by international investors in the heart of Europe, with the mission to elevate merger and acquisition advisory to a higher level.

In 2009, the first Business Support Center was launched, followed by the second in 2022. Today, we operate as a true one-stop shop, combining traditional M&A advisory expertise with the latest technological innovations to offer smart, efficient, and future-ready solutions.

We deliver high-end, complex services based on international standards. Our professionals offer deep expertise and extensive knowledge in transaction services. Thanks to our thorough understanding of the market, we are well aware of industry needs and the unique challenges companies face. Each team member specializes in a specific area of M&A, allowing us to provide fully integrated and comprehensive advisory services.

BUSINESS **IT** SOLUTIONS

A strong IT backbone is essential to effective merger and acquisition advisory. Beyond global networking and the support of M&A World professionals, the foundation of our success lies in secure IT infrastructure, digitalization, and innovative business IT solutions.

One of our flagship innovations is the M&A World Matchmaking Platform – a smart, digital solution that revolutionizes the way buyers and sellers connect worldwide. It empowers users to create tailored investment or target profiles, explore a constantly growing database of thousands of active opportunities, and receive AI-powered recommendations aligned with their strategic goals. Thanks to its intuitive design, secure data environment, and intelligent automation, the platform turns traditional deal sourcing into a streamlined, efficient, and future-ready experience.
